

## AM Session: National Manufacturing & Supply Chain Conference

### BIOPHARMA

Times	Name	Topic
10.00 - 10.15	Tom Way – Head of Life Sciences, Real Life Science	Recruitment and Retention Trends in the Life Science Industry
10.15 - 10.30	John McKeon – Technical Director & Co-Founder, Portalis	The valuable significance of serialisation within the supply chain. Futureproof your company's success in an ever evolving sector.
10.30 - 10.45	Dr. Peter Moir – Company Director, Relequa Analytical Systems Limited, Ireland	Fidelity of Moisture Status in the Pharmaceutical Supply Chain
10.50 - 11.20	<b>Coffee Break and Networking</b>	
11.20 - 11.35	Noel Gibbons – Lead Programme Manager, Anecto	Pharma & Biotech Packaging: From the Cradle to the Grave.
11.35 - 11.50	Richard Lewis – Biopharma UK	Biopharma UK and Ireland
11.50 - 12.05	John Tuohy – Director of 2e Technical Development Ltd	Selective Recovery of Nutrients and Re-usable water from biological process waste streams using cross-flow membrane filtration
12.05 - 12.20	David Roche – Head of Dublin Office, BioPharma Engineering	A guide to lean Capital Investment
12.20 - 12.35	Stephen Geary – CEO, Sothic Bioscience	Convergent BioTech - A Culture of Innovation
12.35 - 12.50	Brian Cody – COO, Biopharmawatch	Risk Management Using Physical Verification
12.50 - 1.45	<b>Lunch Break and Networking</b>	

## PM Session: The National Sustainability Summit

### SUSTAINABLE FOOD/AGRI

1.45 - 2.00	Michael Kelly – Founder and Weeder-in-Chief, GIY	GROW @Work - How the World's Greatest Places to Work are Growing Their Own Food.
2.00 - 2.15	Marion Weymes – Researcher, Trinity College Dublin	Assessing The Practice & Sustainability Potential of City-Based Food Sharing Economies.
2.15 - 2.30	Srinivasa Reddy Chaganti – Industrial Research Fellow Associated with Advanced Materials and Bioengineering Research, Trinity College Dublin.	Eco- Friendly Bio-Based Polymer Composite Materials as Transparent Films for Food Packaging
2.30 - 2.45	Liam Murphy – Co-Founder and Director, HPP Tolling	The Benefits and Applications of High Pressure Processing (HPP) Technology

### WATER & WASTE WATER TREATMENT AND MANAGMENT

3.00 - 3.15	Liam McCarton Sean O Hogain – Chartered Engineer at Dublin Institute of Technology	TBA
3.15 - 3.45	<b>Coffee Break and Networking</b>	
3.45 - 4.00	Kieran Nolan – Head of School of Chemical Sciences, DCU	DCU Water Institute: Development of New Wastewater Treatment Technologies
4.00 - 4.15	Dr. Brid Quilty – Research Director, DCU School of Biological Sciences	Sustainable household water treatment in Sub-Saharan Africa using solar energy: the WATERSPOUTT Project

All presentations/timetables are subject to change. Please check with onsite event timetable on the day.
